Measurements

- Horizontal card base in Blushing Bride
 - Metric (A4 cardstock) 10.5cm x 29.7cm, scored at 14.8cm
 - Imperial (letter sized cardstock) 4¼" x 11", scored at 5½"
- Basic White layer
 - Metric (A4 cardstock) Quarter of a sheet, 10.5cm x 14.8cm
 - Imperial (letter sized cardstock) Quarter of a sheet, 4¼" x 5½"

Instructions

1. Using the Merriest Frames hybrid embossing folder with the stitched rectangle die inserted, emboss the front of the Blushing Bride card base by running it through the cut & emboss machine using platform 1 and specialty plate 4. This will also cut a rectangle into the centre of the card.
2. Place the 'solid outline' frame die into the hybrid embossing folder, along with the stitched rectangle die. Place the Basic White layer into the folder and run it through the cut & emboss machine as in step 1.

Stamped images are © Stampin' Up! Projects are created for you by the Crafty Collaborations team. You are welcome to use this document for your personal projects, but please do not distribute it physically or electronically to customers, demonstrators, or others without the express permission of the creators. Happy stamping!

3. Line up the detailed frame die over the embossed white layer and run it back through the cut & emboss machine using the cutting plates to get a more intricate cut.
4. Heat emboss the sentiment onto the white stitched rectangle in silver embossing powder. (Use versamark ink to stamp the sentiment to give the powder something to stick to before heating).
5. Making sure that the card base is closed, stick the stamped rectangle into the rectangle space on the front of the card. When you open the card the sentiment should now be on the inside of the card.
6. Stick the white embossed die cut to the front of the card.
7. Embellish the front of the card with die cut poinsettias stamped with Blushing Bride ink, and with die cut foliage that have been heat embossed with copper and silver embossing powders.
8. If required finish the card with some Gray Granite ribbon.
